

RECYCLING NEWS UPDATE

PROGRAM UPDATE

I can't believe that we are near the end of another year already! Please keep in mind as we enter the holiday season and have dreams of receiving everything on our Christmas list, there are several things to keep in mind as far as the recycling program goes. Please remember that all electronics are banned from the landfill and cannot be disposed with the regular garbage. There are several local businesses that will take electronics. Some of the businesses do charge a fee for disposing of the electronics which is never popular, but it is a far better option for the environment than it is to dispose these items. The garbage haulers do monitor the garbage as the carts are dumped and they can actually see if there are items being disposed that are prohibited such as electronics. There are also avenues for donating your used cell phones so that they can be given out to the elderly so that they can call 911 when they need to. Most cell phone retail outlets will take your old cell phones for this program. There will also be programs sponsored by the county for you to properly dispose of your electronics. These are listed on the same page as the garbage and recycling pick up dates. There will also be several hazardous waste pick up dates sponsored by the county in 2019. I have listed these dates also with the other pick up schedules for easy reference. Also keep in mind that the wrapping paper from all of those gifts are not recyclable. This must be disposed of with the regular garbage. We have enclosed again this year a very useful summary guideline summary on how to properly prepare your recyclables and what is accepted or not with our single stream recycling program. Please keep in mind that plastic bags are not recyclable. If there are ever questions on what is recyclable or not, please contact the clerk's office.

The Village is again picking up real Christmas trees after the holiday season to be chipped. The trees must be placed by the curb and all decorations, wires, bows, lights, etc. must be removed. If these guidelines are not followed, your tree will not be picked up. The deadline for picking up the trees will be **Monday, January 14, 2019**. No trees will be picked up after this time. The village employees will make every effort to pick up the trees in a timely manner but we are at the mercy of Mother Nature. We will not pick up Christmas Wreaths. Because of the amount of wires on them, we cannot chip them. Please dispose of them with your regular garbage. Any wreaths placed out on the curbing will not be picked up.

COMPOST SITE

We ask that you continually take care of disposing compost material properly. There are signs down at the site that instruct you which pile is the proper location to dump your compost material and brush. Please make sure not to leave behind bags, boxes, etc. that you may have used to bring the compost material to the site. These items are supposed to be taken with you and disposed with your regular garbage. This has continued to be an issue and needs to improve. Please also remember that we can only accept brush up to 4" in diameter. If there is a need to have the brush picked up (this is for larger quantities only), we ask that you contact the clerk's office to get on the list. We also ask that you remove all root balls from the brush and bushes. We cannot run those through the chipper.

TIRE RECYCLING

The tire recycling event is scheduled for Saturday, June 1st from 9 am – 11 am at Officials Den at 408 N. 8th St. Cost for a tire is \$3 and you are limited to 20 tires per household. Tickets must be purchased in advance from the clerk's office. No money will be handled at the event. Please watch for future notices and information on when the tickets go on sale.
