

RECYCLING NEWS UPDATE

PROGRAM UPDATE

With the holiday season upon us, please keep in mind the banned items for landfills. One of the most common items this time of the year are electronics. There are programs sponsored by the County for you to drop off your old electronics and hazardous materials. These dates are listed on the attached page along with the garbage/recycling pick-up dates.

CHRISTMAS TREE PICK-UP

The Village will once again be picking up real Christmas trees after the holiday season to be recycled. The trees must be placed by the curb and all decorations, wires, bow, lights, etc. must be removed. If these guidelines are not followed the tree will not be picked up. We will not pick up any Christmas wreaths because of the wires in them.

COMPOST SITE

When using the compost site, please remember to read the signs and dump the compost material and/or brush on the proper piles. There are signs at the site that instruct you which pile is the proper location. Due to the stages of processing of the compost materials it is very important to dump onto the correct pile. We accept brush up to 4" in diameter. We also ask that you remove all root balls from the brush and bushes since they cannot be run through the chipper. These can be put in your regular garbage can.
