They will also be doing work on the culverts which will cause some temporary closing for a couple of weeks but otherwise the road should remain open during this project. We do not have an exact start date as of right now but the work has been authorized and should be completed sometime this summer.
- Received a notice from the Department of Natural Resources approving the Well #4 Facilities Plan and Specifications to install an iron removal filter system at the well.

BRUSH PICK-UP

Brush pick-up is available. If you have brush that needs to be chipped, you can either haul it to the compost site and place it on the brush pile or we can chip on site for larger quantities. We usually chip once a week on Wednesdays. We will chip brush up to 4" in diameter. You must contact the clerk's office at (920)853-3241 to request the chipping at your property. If you do not call to have the brush picked up and chipped, it will not be done.
